

ASSOCIATION MEETING - 2018-19

Association Program Inauguration: SWAN'2018 And MOU Signing Program

Date: 30th July'2018

The department of social work inaugurates the SWAN Association for the year 2018'. Officially the office bears were elected by nominating process for the secretary joint secretary, treasure and two executive members' posts. The swan inauguration has its opening on 30th July'2018, in Mother's Regina Hall Rev.Fr.Anto executive director of the Don Bosco Media, Trichy.

*A formal prayer was evoked followed by welcome address. After sharing the memento swearing ceremony was held. The chief guest offered the sash for the office bearers and oath was pledged by them. The talk was about the “**Personal Commitment Leads to Social Commitment: Challenges and Responses**”. MOU was signed with the Don Bosco media, the chief director of the esteemed institution Rev.Fr.Rajdev, the authorized person to sign the MOU and gave the presidential address.*

Perception of the Local Governance

The department of social work arranges a session to sensitize on the voting ability and the pattern of governing style widely seen and as perceived by the students from the public point of view were discussed. Mr.Nandhakumar, Director, Makkal Shakhi Iyyakkam, moderated and hosted the session to give clarification. The most remarkable note of the session was video clippings on the local governance and the welfare schemes were played as videos and placed great intuition among the voters (students) to elect the right leader in the coming election. The program was a great impact among the students who get to know the real plight of the political parties and their internal strategies in making their parties to survive

Exfoliating social work skills in practice : Date:13.02.19

The department of social work engages the students for yet another in-service program for the students. The chairman from ARAM HOSPITAL, Trichy handled two hours input session with live examples on various skills, inevitably needed for the social worker in dealing problematic person called clients in community, industry and in hospitals. It was an interactive session and gave the topic to the students and made them to free list the area of skill they want to uncover. Though it was medical exposure it was hands on experience for the students to get learn on practice while they are in the fields. The session was much on the resources person experience while practicing therapy. Rather directly listing out the skills he gave an exhaustive list to work on and thereby asked the students to pick the skills and made explanation by reflecting on their field based theory class.
